PROFESSIONAL SUMMARY

Aspiring data professional with over two years of experience spanning cloud support, Azure infrastructure, SAP and web development. I have a strong interest in using data to improve systems, enhance performance, and support informed business decisions. My background includes hands-on experience in Microsoft Azure environments, where I've supported cloud operations, troubleshoot software issues, and helped maintain system reliability and scalability. I work confidently with R and Python for data analysis, and machine learning. I'm skilled in data cleaning, and transforming complex datasets into clear, actionable insights. With a blend of engineering mindset and analytical thinking, I enjoy solving technical problems while aligning solutions with business goals. I'm driven by identifying patterns, improving operational efficiency, and using structured, data-driven approaches to solve real-world challenges.

SKILLS

Data Science & Programming: Python, R, SQL, Power BI, AI, Machine Learning, Data Cleaning & Preprocessing, Excel (Pivot Tables, VLOOKUP/XLOOKUP), Google Sheets, PowerPoint

Cloud, Platforms & Development: Microsoft Azure, SAP, ServiceNow, Front-End Web Development, GitHub, Figma, Software & Hardware Troubleshooting

Professional & Productivity Skills: Analytical Thinking, Problem-Solving, Project Management, Cross-Functional Collaboration, Adaptability, Organizational Skills, Effective Communication, Microsoft Office Suite, Google Workspace, Canva, Adobe Premiere Pro, Adobe Photoshop

PROFESSIONAL EXPERIENCE

Software/App/Cloud Support Associate

February 2024 – July 2026

Accenture | Hybrid

Robinsons Cybergate Tower 2, Pioneer St, Mandaluyong, 1554 Metro Manila

- Managed and monitored applications within Microsoft Azure, ensuring 99.9% uptime, high availability, and reliable server performance in production environments.
- Analyzed server logs, deployment metrics, and system performance data to diagnose and resolve complex technical issues — applying structured, data-driven problem-solving approaches.
- Utilized SAP to organize, update, and track billing and purchasing records, ensuring accurate data management and streamlined business processes.

Provincial Data Processor I

November 2023- December 2023

Department of Agrarian Reform (DAR) | Contract of Service

Bgy. 28 - Victory Village North (Pob.), Legazpi City, Albay

- Conducted comprehensive data audits and validation processes on structured datasets, improving data accuracy by approximately 25% and reducing reporting discrepancies by 20%, strengthening data integrity for business intelligence and reporting.
- Analyzed and transformed ILDF examination datasets using Microsoft Excel (advanced formulas, PivotTables, VLOOKUP/XLOOKUP) and Google Sheets, generating automated summary reports that reduced manual reporting time by 30% and enabled faster stakeholder decision-making.
- Performed data cleaning, preprocessing, and status tracking, updating database records to improve project monitoring efficiency by 35% and enhance cross-functional visibility.
- Performed basic data analysis to identify trends, discrepancies, and opportunities for process improvement.

Information Technology Support/ Webinar Coordinator

June 2022- August 2022

Bicol University | On-the-Job Training |240 hours

Legazpi City, Albay

- Maintained and structured digital records and datasets with strong attention to detail, ensuring data accuracy, consistency, and efficient retrieval.

- Managed communication workflows by organizing registrant information, segmenting contact lists, and distributing targeted event updates using structured data tracking systems.
- Provided backend technical assistance for virtual events, troubleshooting platform issues, monitoring system performance, and ensuring seamless user experience through proactive problem-solving.

CERTIFICATIONS

- **Google Data Analytics Course** (In progress)
- **Certification of Completion:** *Introduction to Data Science: Cisco* (2026)
- **Certification of Completion, Online Course:** *Seaborn Mastery: Comprehensive Data Visualization in Python* (2025)
- **Certification of Completion, Online Course:** *Data Visualization with Power BI Simplified* (2024)
- **Certification of Eligibility,** Civil Service Exam PPT-Professional Level Passer (2023)
- **Certification of Completion, Udemy Online Course:** *Mastering Python Visualization with Seaborn* (2023)

EDUCATION

Bicol University

Bachelor of Science in Computer Science

Legazpi City, Albay

August 2019-July 2023

- **Cum Laude (2023):** *Dean's Lister (2022-2023): Academic Awardee (2019-2020, 2021-2022)*
- **Cumulative GPA:** 1.6013
- **Relevant Coursework:** *Data Mining, Machine Learning, Information Management, Numerical Analysis, Information Assurance and Security, Software Engineering, Computer Programming, Programming Languages, Introduction to Computing*
